Male investigations	Semen Analysis and test wash. Blood tests for HIV, Hep B, Hep C, CMV and Syphilis, and urine test for Chlamydia and Gonorrhoea	£330

Screening and blood tests

Screening type	Information	Cost (inc. VAT)
Male and female		
Blood born virus singular	Blood test for one of the following: HIV, Hep B or Hep C	£40
Blood born virus package	Blood test for all three of the following: HIV, Hep B and Hep C	£115
CMV	Blood test for CMV	£40
Chlamydia	Urine test for Chlamydia	£40
Gonorrhoea	Urine test for Gonorrhoea	£35
Syphilis	Blood test for Syphilis	£35
Sexual health screening package	Blood test for HIV, Hep B, Hep C, CMV and Syphilis, and urine test for Chlamydia and Gonorrhoea	£230

Screening and blood tests		
Screening type	Information	Cost (inc. VAT)
Cystic fibrosis screen	Blood test to screen for Cystic fibrosis carrier status	£210
Karyotype	Blood test to screen chromosomal abnormalities	£385
Female only		
AMH	Blood test for AMH	£80
Female endocrine package 1	Blood tests for one or more of: FSH, LH, prolactin, oestrogen and progesterone	£35
Female endocrine package 2	Blood tests for one or more of: FSH, LH, prolactin, oestrogen and progesterone, and AMH	£100
Rubella	Blood test for immunity to Rubella	£35
Beta-hCG	Blood test for beta-hCG	£35
Male only		
Male endocrine package	Blood test for FSH, LH, testosterone and prolactin	£50
Y chromosome deletions	Blood test for Y chromosome deletions	£200
Male genetics screen	Blood tests for Cystic fibrosis and karyotype	£600

Cancellation policy

For appointments cancelled with less than 24 hours' notice, or not attended, and where full payment has already been taken, NUH Life will charge the following amounts according to appointment type:

Appointment cancellation policy			
Appointment type	Fee paid in advance	Refund amount	Final cost to patient
Consultation	£230	£180	£50
Follow-up consultation	£150	£100	£50
Nurse consultation	£130	£80	£50
Baseline scan	£100	£50	£50
Saline infusion sonography	£350	£250	£100
Hysterosalpingogram (HSG)	£400	£300	£100
Additional counselling	£65	£40	£25
Pregnancy scan	£100	£50	£50

Occasionally treatment cycles are abandoned or cancelled. This can be for clinical reasons (over or under response), patient/ partner withdrawal of consent, illness, personal circumstances, IUI sample can not be produced, IUI sample not suitable for treatment etc.

For the purposes of the cancellation policy, an IUI or DI cycle is classed as complete when the insemination has been performed. If your treatment cycle is not completed, and where full payment has already been taken, NUH will refund a proportion of the fee you paid, resulting in a cancellation fee as follows:

Treatment cancellation policy				
Cycle type	Stage of abandonment	Fee paid in advance	Refund amount	Cancellation fee
Any type	Day of first scan e.g. cycle not started	Full treatment fee	Full treatment fee minus £85	£85
IUI natural cycle	After first scan, before day of insemination	£600	£345	£255
IUI natural cycle	On day of insemination	£600	£145	£455
IUI with gonadotrophins	After first scan, before day of insemination	£1,250	£345	£905
IUI with gonadotrophins	On day of insemination	£1,250	£145	£1,105
DI natural cycle/ Clomid/ Letrozole*	After first scan, before sample thaw on day of insemination	£1,550	£1,145	£405
DI natural cycle/ Clomid/ Letrozole*	On day of insemination, after sample thawed	£1,550	No refund due	£1,550
DI with gonadotrophins*	After first scan, before sample thaw on day of insemination	£2,200	£1,145	£1,055
DI with gonadotrophins*	On day of insemination, after sample thawed	£2,200	No refund due	£2,200
Any type	Any stage due to patient non-compliance without notice e.g. gone travelling, did not attend	Full treatment fee	No refund due	Full treatment fee

* Using NUH Life donor sperm.
